

## MA10™ 12E

### Upright Scrubber

- **Compact** – Ideal design for scrubbing small spaces quickly
- **Sanitary** – Creates a cleaner environment compared to mopping
- **Versatile** – Cleans hard surfaces quickly and effectively

### **Big clean for small spaces.**

Moving beyond the mop.

*For generations the mop and bucket was the only option for cleaning small spaces, but simply spreading dirt around is neither effective nor sanitary. This is why Clarke developed the MA10™ 12E Upright Scrubber. Not only does its compact, lightweight design allow you to clean very tight areas, but its superior productivity gets the job done fast, giving you more time for other tasks.*

**Trusted. Reliable. Efficient.**

# Clarke®

# Low profile. High performance.

## The faster way to cleaner floors.

The Clarke MA10's convenient, easy-to-use features make it perfect for cleaning small, high-traffic spaces quickly and effectively. The single-pass scrub and dry performance provides quick access to cleaned areas, and the comfortable, two-hand grip combined with its light weight make maneuverability and transport easy for any operator.

## A cleaner clean.

With a more effective and efficient cleaning system that removes dirt and water rather than spreading it around like a traditional mop, you not only decrease chances for slip-and-falls, but you create a more hygienic environment, as well.

## The better alternative.

The MA10™ 12E enables you to dramatically increase your cleaning productivity while making daily cleaning tasks much more comfortable and enjoyable, compared to the messy mop and bucket alternative.

### Simple and Intuitive Controls

Using a scrubber has never been so easy thanks to the simple controls of the MA10™ 12E: brush/vac motor on/off and water on/off.

### Optional Carpet Cleaning Kit

Freshen up smaller carpets, including removal of spots, by adding an optional carpet kit. Brush and squeegees can be removed without any tools making daily maintenance operations easy and fast.

### Low Profile

The MA10™ 12E has a cleaning clearance of under 4 inches, providing easy access to hard-to-reach areas.

# MA10™ 12E Upright Scrubber

- 1** Two-hand grip provides comfortable operation
- 2** Removable tank in tank design makes filling and emptying easier
- 3** Low deck profile gives the operator easy access to hard-to-reach areas
- 4** Dosing cap makes adding the right amount of detergent much easier
- 5** Optional manual suction hose offers the ability to reach less accessible areas
- 6** Strong aluminum frame is built for reliability and long life

- 7** High brush speed and strong suction effectively cleans hard surfaces or carpet
- 8** Flexible squeegees can be raised and lowered for double scrubbing
- 9** Easy maintenance allows for a clean, functional machine
- 10** Detachable power cord for quick service
- 11** Quick cord clip for simple cord management
- 12** Tanks, squeegees and brush lock into place with an audible "click", ensuring proper installation

**Foot Activated Controls**  
Machine functions stop when in the upright position.

**MA10™ 12E Solution Tank**  
Solution tank dispenses only clean solution, unlike a traditional mop-and-bucket.

**Lightweight Design**  
Light weight (26.5 lb) ensures easy transport.
